Subject  
Suspension letter CE-413

Dear Mr. Robben,

In August 2022 Xiamen ATP Technology Co. Ltd., China., applied to NMI for approval of its quality system for conformity assessment for Non-automatic weighing instruments according to conformity assessment procedure module D of the Directive 2014/31/EU. An initial assessment was performed on 16 March 2023 at the premises of Xiamen ATP Technology Co. Ltd. to verify compliance of the quality system with the criteria of the directive. On basis of this assessment NMI approved the quality system with certification number CE-413 on 27 October 2023.

In an email we received on 26 January 2024 you mentioned that the company is not sure whether it wants to prolong the module D certification due to the high costs of the certification compared to the distribution of the scales. Therefore, you requested a suspension of the certificate.

Due to the abovementioned reason the Certification Board of NMI Certin B.V. has decided to suspend your module D certificate for a period of 6 months from 15 March 2024 until 15 September 2024. If no (on-site) 1<sup>st</sup> surveillance audit is scheduled and performed before this date, the Certification Board of NMI Certin B.V. has no other option than to withdraw the CE-413 module D certification.

According to Annex D item 7 of the directive, NMI shall inform its authorities and ask them to inform the Member States of the EU about its decision.

If you have any questions, please don't hesitate to contact Mr. Schmidt, Head Certification Board.

With kind regards,  
NMI Certin B.V.

M.Ph.D. Schmidt  
Head Certification Board
