Subject
Suspension of CE-250

Dear Mr. Kang,

On 10 October 2024 you received an email from Mr. Tjoa, manager System Certification in which he proposes not to perform the audit in 2023, terminate the current project and reschedule the audit to the first quarter (Q1) of 2025.

Since an audit does not take place this year (2024) we have no other option than to suspend your module D certificate for 4 months.

The suspension means that you are not allowed to place instruments on the market with reference 0122 to the CE marking starting as from **23 October 2024** until **23 February 2025**.

The suspension can be lifted through one of the following ways:

1. The suspension will be lifted when the new audit has been performed and any (possible) open non-conformities are resolved;
2. The suspension will be lifted and automatically turns into a withdrawal of CE-250 if the audit doesn't take place in the first quarter of 2025.
3. You request for a cancellation of your module D certificate.

According to Annex D item 7 of the directive, NMI shall inform its authorities and ask them to inform the Member States of the EU about its decision.

If you have any questions, please do not hesitate to contact me.

With kind regards,
NMI Certin B.V.
