Subject  
Official suspension letter regarding your CE-353  
Certification

Dear Mrs. Dimova,

On 17 December 2024 a letter was sent to your company regarding the fact that a lot of subjects in the table, mentioned in the letter of 22 August 2024, were missing or failing. In this letter we requested you to provide us with the necessary information.

Unfortunately we did not receive any response from you. Therefore the Certification Board of NMI Certin B.V. has decided to suspend your module A2 certification.

The suspension means that you are not allowed to place instruments on the market with reference 0122 to the CE marking starting as from **3 February 2025** until **3 August 2025**.

The suspension can be lifted through one of the following ways:

- The suspension will be lifted when all the missing information mentioned in the letter of 22 August 2024 is sent to NMI Certin;
- The suspension will be lifted and automatically turns into a withdrawal of CE-353 if the necessary information is not provided before 3 August 2025;
- New Glass requests for a cancellation of the module D certificate.

According to Annex D item 7 of the directive, NMI shall inform its authorities and ask them to inform the Member States of the EU about its decision.

If you have any questions, please do not hesitate to contact me.

With kind regards,  
NMI Certin B.V.

Head Certification Board
