Subject
Cancellation of CE-172

Dear Mr. Huang Yunpeng

In 2011 Holley Technology Ltd. applied to NMI for approval of its quality system for conformity assessment of active electrical energy meters according conformity assessment procedure module D of the Directive 2004/22/EC (later 2014/32/EU). An initial assessment was performed on 18 January 2012 on the premises of Holley Technology Ltd., China to verify compliance of the quality system with the criteria of the directive. On basis of this assessment NMI approved the quality system with Certification CE-172 on 2 March 2012.

In July 2020 we received a letter which informed us you would like to withdraw your Module D Certificate with number CE-172.

In reply to this request the **Certification Board of NMI Certin B.V. decided to cancel the certification CE-172 of Holley Technology Ltd.** According Annex D item 7 of the directive, NMI shall inform its authorities and ask them to inform the Member States of the EU about its decision.

As result of this decision it is not allowed for Holley Technology Ltd. to place instruments on the market with reference 0122 to the CE marking after 15 August 2020.

If you have any questions, please don't hesitate to contact me.

With kind regards,
NMI Certin B.V.

M. Boudewijns
Manager Certification Board
