Subject
Cancellation of CE-188

Dear Mr. Roozenboom,

In the first quarter of 2012 Rocar-Tech Garage Equipment B.V. applied to NMI for approval of its quality system for conformity assessment of Exhaust Gas Analyzers according conformity assessment procedure module D of the Directive 2004/22/EC, current 2014/32/EU.

An initial assessment for Module D Certification was performed on 23 March 2012 on the premises of Rocar-Tech Garage Equipment B.V. to verify compliance of the quality system with the criteria of the directive.

On basis of this assessment, NMI approved the quality system with Certification CE-188 on 30 May 2012.

During the audit of 22 April 2022, Mr. Dick Verkuil informed you, that Rocar-Tech Garage Equipment B.V. cannot have the CE-188 module D certificate on its own name. The reason for this is that the module B certification T10468 has expired on 3 May 2022 and won't be continued. This certificate is the only certification on your module D scope and therefore the CE-188 certificate has to be withdrawn.

In reply to the abovementioned, the **board decided to cancel the module D certification CE-188** of Rocar-Tech Garage Equipment B.V. According to Annex D item 7 of the directive, NMI shall inform its authorities and ask them to inform the Member States of the EU about its decision.

As result of this decision, it is not allowed for Rocar-Tech Garage Equipment B.V. to place instruments on the market with reference 0122 to the CE marking after 3 May 2022.

If you have any questions, please do not hesitate to contact me.

With kind regards,
NMI Certin B.V.

M.Ph.D. Schmidt
